

Quotation (FOB)

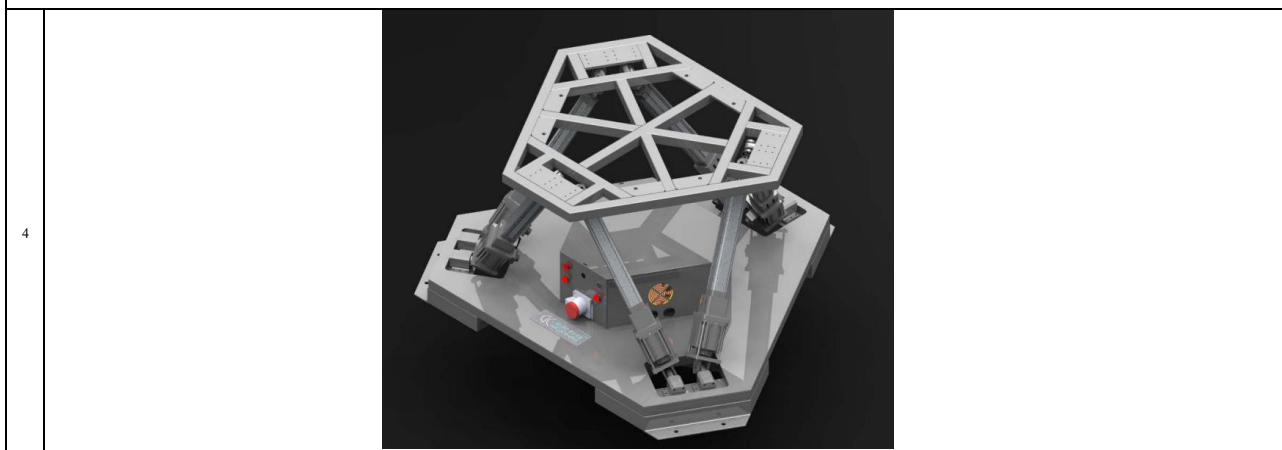

Quote No.: 20230403	Quote date:20230403
Company: Customer: Tel: Email:	From: Nanjing Allcontroller Technology.Ltd .,Co Contact: Jerry Email:

No.	Product Name	Configurations	Description	Unit Price (USD) (/Set)	Quantity	Amount	Remarks
1	6DOF motion simulating platform-800kg payload	Payload: 800kg	Base platform: 1959*1699mm(for reference)	14000	1	14000	
		Electric cylinder Model: AC130-300 Thrust: 10KN Speed:125mm/s Stroke:300mm Screw lead: 5mm Ball screw dia.: φ32 Reduction ratio: 1:1	Motor mounting:direct connection Cylinder housing body: Aluminum Working temperature: -5--40℃ Upper platform connection: Hook hinge Lower platform connection: Hook hinge Limited swtich:2				
		Servo motor & driver single Motor power: 1.8KW Torque:11.46Nm 1500rpm/min Voltage: 380VAC	Servo Motor with driver Cable length: 6m Motor with brake				
		Control system	UDP protocol,ETHERCAT bus system, include ACB130 gyroscope collector				
Total Amount				14000			

6 DOF Flight Simulation Platform Parameters(for reference)

	DOF	Excursions	Velocity	Acceleration	Remarks
2	Roll	±30°	20°/S	50°/S²	
	Pitch	±30°	20°/S	50°/S²	
	Yaw	±20°	20°/S	50°/S²	
	Sway	±200mm	125mm/s	0.2g	
	Surge	±200mm	125mm/s	0.2g	
	Heave	±150mm	125mm/s	0.2g	

Reference Sample Structure

- Note:
1. Price Terms: the quotation is valid within 15 days
 3. Warranty: One year warranty service.
 4. Payment Term: 50% payment as deposit before production, 100% payment before shipment.
 5. Lead Time:35 days against receipt of deposit.
 6. Packing: Wooden box.
